

News and Views . . .

and what have you

by BOB CRAIG

Saturday is a very important day for the people of Texas and it is hoped that all of the qualified democratic voters of Hamlin will take the time to vote in the second primary to be held then. Not only vote, but to study the issues before hand and vote intelligently.

So that you and thousands of others will not have to stay up so late Saturday night to find out the winners vote early.

As was stated in this column last week this paper feels an obligation to recommend certain candidates to its readers for consideration. This obligation is based on the need for a sound, economical state government.

In the race for governor I find it hard to imagine how any candidate can think the people are as naive as Don Yarborough seems to think the people of Texas are. All in the same breath he promises to double the spending and cut the taxes. For ten years the politicians have tried to tax the Eastern pipeline companies without success but now Yarborough says he can do it. He personally is going to see that every town in Texas will get a new industry—but he doesn't bother to say how he is going to pull off this eighth wonder of the world.

When a candidate is no more responsible in his campaign remarks than Mr. Yarborough is this paper does not feel that he is governor material.

As we stated last week this paper is endorsing John Connally for Governor, Preston Smith for Lieutenant-Governor, Waggoner Carr for Attorney General, and Joe Pool for Congressman-at-large.

As the small towns of West Texas struggle to survive I don't think this is the time to turn over this district's senate seat to Abilene. Abilene will be represented by two legislators in the coming sessions of the house so they won't be left out.

Because of this, David Ratliff is this paper's choice for the state senate. David is a very highly respected member of the senate and is serving on some of the most vital committees in that organization. Why drop a man who has served this area well for a man who is from a city that seems to get more than its share of every federal and state aid program that comes along?

I get pretty disgusted sometimes with people who are so petty that they will swallow their principles, pride and self-respect for the sake of the so-called "True" Democratic Party such as the third runner in the race for legislature in the first primary seems to have done.

Foy Easley hit Carl Wheatley from every side in his advertising during the first primary because of Wheatley's liberal voting record and now he comes out in an advertisement for Wheatley on the grounds that Roy Arledge is a republican!

From studying Easley's and Arledge's campaign material, I can find very little difference and if one is a republican then I would guess that the other one is.

It may be that Easley didn't believe any of the things he used in his campaign, I don't know. Just because a man does not follow the liberal wing of the democratic party, does that make that man a republican? This paper endorses Roy Arledge for the House of Representatives because it knows that he will represent the people of this area and not vote for the labor unions 15 out of 21 times as his opponent did in the last session of the legislature.

Boy are things getting confusing on the National level. People are being fired for taking money from Billie Sol Es-

AN EDITORIAL— YOUR COOPERATION IS NEEDED

The recent disaster south of Hamlin and the storm that hit Haskell has caused the people who have to work with these disasters to realize that something has to be done about the people who keep phoning the Funeral Home, the Police Department, and the Hospital for information. Also that the general public needs to stay off of the roads and streets during these emergency periods.

The people whose job it is to save lives and property do not have the time to serve as information centers. During the times of wrecks, storms and fires their phone lines become so jammed that if someone were to try to call for help they would not be able to get through. This could cost the life of one of your loved ones.

Arrangements have been made with the staff of the Herald to report as much information as is available to area radio and TV stations as soon as possible. By doing this it is hoped that the people will stay out of the way and listen to the radio and TV for the information.

It is a great wonder that several people were not killed or injured last Friday night as they milled around the highline wires that were down on the highway south of town.

All of the unnecessary sightseers made the ambulance and police work most difficult.

Sometime it might be your life these men are trying to save and you would not want them to be held up by a bunch of curious people getting in the way.

RAIL, HAIL HITS HERE DURING STORM

Much needed moisture for the area fell here last Friday but was accompanied by hailstones which ranged from marble size to the size of tennis balls in places. The rainfall measured 1.10 and was followed by a disastrous quirk of nature—the tornado.

The tornado which struck southeast of here taking the life of Mrs. Roy Smith was one of the several which played havoc in the area during the end of the week.

Friday evening at 6:50 p.m. the power went off in Hamlin apparently at the time the tornado, which had roared through over McCauley about 6:30, hit power lines on the highway about eight miles southeast of here. About 30 utility poles were snapped along the path leaving power lines down across the highway.

Homes demolished were those of A. W. Bagley which was owned by Dr. Adamson of Abilene; the Charlie Cox home, owned by Herman A. Propst of Anson; and the Roy Smith on the Jasper Gentry farm.

Smith was seriously injured and taken to the Anson General Hospital. The Bagleys were not at home at the time and the Cox family was in the cellar near their home spending the anxious moments, especially those when the door was torn from the shelter.

The Bagleys have still not located their household furnishings. The freezer, refrigerator, piano, living, dining and bedroom furniture are all missing.

Only the head of the sewing machine was found, but it was bent. A wall of the house was intact but lying flat on the ground. An appliance cord was still in the wall plug. The families' immediate plans are uncertain. At this time they are staying with relatives.

At the Cox home parts of the 1950 Cadillac which had been parked at the house were strewn from the Cox yard to 500 yards down the road where the body of the car was covered with mud. An inflated tire was still mounted but torn from the car. Only the crest on the dashboard was undamaged and remained in its proper place.

At the Smith place only parts of the foundation are left to show where the house once stood. Mrs. Smith's body was found about 200 yards from the house in the wreckage. Smith had crawled out to a pickup in the field evidently in an effort to get help. He suffered a broken leg, cuts, bruises and burns from the windblown sand.

Mr. and Mrs. Bagley and son, Ronnie, were returning to their home from Anson when Bagley heard Smith calling for help. A mud company truck came by shortly and radioed for an ambulance.

The Bagleys live about one-half mile from the Smiths. They had been to Anson, Bagley with a load of wheat and Mrs. Bagley and Ronnie following in the car.

Neighbors, friends and the church members of the area have remembered the stricken families with showers and with gifts of money.

AUSTIN—Eight tired men will sit down Saturday night—but not to relax.

Probably it will be well into Sunday before four know that they have won and four know that they have lost the Democratic runoff primary for four important statewide offices.

John Connally and Don Yarbrough have battled it out for governor. James A. Turman and Preston Smith are the two tired men in the race for lieutenant governor, possibly the most important job in state government. Waggoner Carr and Tom Reavley competed for attorney general. Woodrow Bean and Joe Pool were the busy men seeking nomination for Congressman-at-large, a statewide seat in the Congress which will be abolished within two to four years.

Following Saturday, they can rest a bit before taking up their campaigns against the Republican nominees who are expected to make the strongest bids since 1874 in the general election on November 6.

But no matter how the democratic primary and the general election turn out, Texas will have new men in the three top state offices beginning next January.

WATER PROGRAM ACCELERATED — Speed with which federal water projects are coming into final stages is shown by the fact that the Texas Water Commission has reviewed 17 federal projects since September 1, with two more coming up for hearing June 11.

Chief Engineer John Vandertulip said that projects already reviewed by the commission have a total first cost of \$325,366,000 of which \$192,052,000 is federal.

Those projects are up for congressional authorization or financing this year, so odds are fair that work by federal agencies in Texas will be accelerated.

THANK YOU and ask that
you vote for a TRUE Democrat
for State Representative.

It is with a deep sense of humility that I express my sincere appreciation to the people of the 83rd. Legislative District who worked so hard and tirelessly in my behalf in the race for State Representative.

I ran for this office as a Democrat, subject to the Democratic Primary, because I have been a Democrat all my life and wanted to represent this Democratic area of Texas in the State Legislature.

I would be negligent in my duty as a citizen if I did not call attention to the fact that one of the run-off candidates has actively supported Republican Candidates for several years.

This man is now asking the Democrats to place him in an office where he will have the opportunity to vote against us and for Special Republican Interests.

I urge you to support a TRUE Democrat in this run-off race, June 2, Primary.

My Sincerest Thanks

FOY H. EASLY

RURAL ELECTRIC SERVICE IS DEPENDABLE!

Dependable is the word for the rural electric cooperatives of Texas. Its a badge the rural electric systems have earned through more than a quarter century of efficient service. And they earned it the hard way. Sparse population in remote areas called for unique distribution of electricity. Not only were the member owners of these rural electric equal to the task but continued system improvements have made them second to none in efficient dependable service to rural areas. Yes, the electric cooperatives of Texas are dependable today, while building a brighter tomorrow.

By MRS. ELMER JOINER

Any news we might have to report at this time seems so insignificant compared to the tragedy that struck our way last Friday afternoon, when the tornado hit the ground in the Radium and Plainview communities, dealing death and destruction in its path. We hear of such things all the time some where else, never realizing that it could happen to us. We knew it could, but you have to see the horror of something like that to fully comprehend what can happen in just a few seconds.

There has been so much written about the damage that it is useless to repeat that part of it, but our tragedy lies in the fact that it took

the life of our good friend and neighbor, Mrs. Roy Smith and critically injured her husband. Mr. Smith is in the Anson hospital with severe injuries, and after seeing how everything was swept away from home, it is beyond our conception how his life was spared.

The Woodrow Bagley family will be thankful for the remainder of their lives that they were away from home and their lives were spared, for their house was completely destroyed. They went through a

terrifying experience, seeing their door torn off, and knowing what was outside, but they were unharmed and able to come out with their lives.

Mr. and Mrs. Fred Rosenbaum certainly got a scare, as the storm was only a half mile south of them, and at the time they went into their cellar, never expected to see their home again, but it went on east of them.

Mrs. Woodrow Goodwin reports that she had always been afraid of the rats in their cellar, but when they saw the tornado coming, they went down in there with them and they looked cute to her. The storm only missed them less than a mile also.

So many people have so much to be thankful for that they and their homes were spared. The wind is still blowing and it makes us wonder what the weather might still have in store for us. One thing, if another vicious looking cloud appears, there will be a lot of people hunting shelter. One last thing on the situation, there are going to be a lot of storm cellars constructed, including this reporter.

We were sorry to learn that the home of Mr. and Mrs. Wayne Wainwright was badly damaged, Saturday afternoon, in the tornado that struck Haskell. Damage was very heavy in Haskell but fortunately no lives were lost.

Six persons from our church attended the Workers Conference in Stamford last Tuesday night, at the Trinity Baptist Church. Those going were Mr. and Mrs. Woodrow Goodwin and Linda, Mrs. Elmer Joiner, Rev. and Mrs. Derrel Lewis.

Lewis. The highlight of the services was the singing by two youth choirs from Jayton. Bob Hamilton was the director.

Twenty four were present for mid-week services Wednesday night at our church. We were glad to welcome Mr. and Mrs. Jack Pemberton of Hamlin as visitors.

Mrs. Johnie Agnew and Mrs. Elmer Joiner went to Anson last Thursday afternoon to visit Mrs. R. E. Ray.

Jodie Ford is home from Hardin-Simmons, for the summer, helping his Dad farm. Brenda and Cathy Combs are visiting Mr. and Mrs. Woodrow Goodwin and Linda, for a few days. They were happy to be able to come back and visit at church Sunday for both services.

Dorothy Gray left on the bus Sunday afternoon for Amarillo, where she will stay with her sister's family, the Marvin Johnsons, and attend beauty school this summer. She will come home this fall to finish her Senior year in High School.

It was good to see Mrs. Sharlot Gabriel, Teresa, Lynn and Tommy back with us again Sunday morning.

Mr. and Mrs. Jack Wright and Melinda, listed with the pastor and family, the Derrel Lewis' Saturday night in Tye. Linda Goodwin attended a slumber party Friday night at the home of her friend, Suzanne Wicker in Hamlin.

A nice sum of money was raised in church services on Sunday night for the Cox family, whose home was destroyed in the Plainview community. There will be more help for them as soon as it can be learned what their plans are and what has been planned in their community. The deacons of the church will also see what can be done to help Mr. Roy Smith and let everyone know.

The Hanna Church will be the scene of a shower for the Bagley family Monday afternoon and all our people will participate in that also, as the Bagleys are well known in our community.

It takes hundreds of nuts to hold a car together, but only one behind the wheel to scatter it all over the landscape.

Local Telephone Bowling Team Wins Second

The 1962 Community League of the Stamford Lanes finished their year last Tuesday evening with Southwestern Bell Telephone of Hamlin taking second place. Bowling with SW Bell are Mr. and Mrs. Melvin Scott, Mr. and Mrs. E. G. Holzmann, Mr. and Mrs. Kenneth Riddle, and Mr. and Mrs. J. B. Gibson.

Individual trophies were presented as follows: The SW Bell for the Sponsors Trophy, Kenneth Riddle for the Men's High Single Game for the entire league, Rosa Lee Scott, for the Women's High Single Game for the league, J. B. Gibson for the highest men's average, and Highest Men's Series for the league.

The bowling shirts worn were red trimmed in white. Bell Telephone Hamlin was used on the back with the bowler's last name. First names in writing was on the front.

nickel cup of coffee!

A nickel goes a long way (like in the good ole' days) when you make your coffee the modern way — with clean, safe, flameless electricity.

Approximately 100* generous, delicious cups for a nickel! And this is only one example for the economy of electricity in your modern living. As a matter of fact, between the years of 1950 and 1960, the average cost of a kilowatt hour of electric service to residential customers served by West Texas Utilities Company went down 21%.

EDITORIAL COMMENT

SIGHTS, SOUNDS, SIGNS—By Roy Craig

STAMFORD AMERICAN

Stamford, Texas, Thursday, May 3, 1962

Stamford citizens this week started a rally for another citizen who is seeking election as representative of this district—Roy Arledge. At the last session of the legislature, the state was re-districted and Jones County became part of the 88rd district which includes Haskell, Knox, Baylor and Throckmorton counties as well as Jones.

Folks in Stamford know Roy Arledge. They have seen him at work. They know he is conservative but know that when he tackles a job, he gets that job done. He enjoys the respect of people all over the state. They appreciate and honor his judgment. They know he is familiar with the problems of West Texas people—farmer, rancher, business man, or just the day laborer.

Many people in Stamford are not pleased with the voting record of Mr. Wheatley. They feel that he possibly is running with and voting with the wrong crowd at Austin. A continuance in office of a man who would favor a bill such as that which would virtually halt the flow of farm workers is not to the best interest of the people of West Texas.

The American believes that the thinking of Roy Arledge more closely represents that of the will of this district.

A NEW BIBLE...

for ME!

She really is delighted because her church is presenting her with a new Bible. She understands and appreciates this gift, because in earning it she has committed many verses to memory, and thus learned to value God's word. The churches desire that all would study and learn to love God. Plan to attend church this Sunday and share in this knowledge and joy.

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

comedy, coming to the Rogue Sunday.

While two powerful nations, the United States and Russia, vie for supremacy in the grim race for space, Walt Disney takes off on the whole thing with the tale of a girl from outer space who intercepts the Number one U. S. astronaut and launches a romance with no holds barred.

Added to the general monkey shines is the performance of Charlie the Chimp, first earthing to the moon and back. It is Charlie's quick work with a fork at the astronaut selection dinner that produces the first human volunteer.

Disney doesn't miss a trick in this story, including a cutie by the name of Dany Saval, whom he found and hired in Paris after a world-wide search for the beauty most likely to be found enroute to beyond the blue horizon.

In color by Technicolor, "Moon Pilot" stars Tryon, Keith and O'Brien, and introduces Miss Saval. Bill Anderson co-produced with Disney. Buena Vista releases.

Wade Butane Co. Named Dealer for J&J Chemical Co.

Rats, mice, cut worms, grasshoppers and other insects have plagued mankind, especially farmers, ranchers and housewives, since the beginning of time.

During each generation, hundreds of devices have been invented and tried—but failed.

In our generation, astute chemists have entered the fray, with poisonous recipes and concoctions of all types most of which were of the anti-coagulant type. But, and behold, current history reveals that rats and other vermin eventually "thrived" on the stuff, by auto-immunization.

But, very recently, a new development has been perfected—one which the dirty vermin can't "learn to love" an entirely new concept of the mass assassination of types. And, it will be especially annoying and lethal to rats, because they can't believe it.

Seriously, according to A. Wade, owner of Wade's Butane and Farm Equipment Co., his firm has just been selected as the exclusive dealer in this area, for this unusual line of pesticides, produced by J&J Chemical Company, Houston.
